Dear Friends,

It's traditional to talk about gifts and giving on Christmas. I would like to touch on an aspect of the tradition that gets rare mentions: gift makers. (No, I don't mean Santa's elves.)

They are civil society organizations and media who gift us better schools, cleaner air, more transparent institutions, more informed decision-making, and safer communities. They do so in an environment that is often very challenging.

And through this dedication, so much more...than the gifts themselves!

The best gifts are not those that are bought and wrapped, but those that are made and given. They are, indeed, gifts that come from the heart.

Story Hour Regulars Do Better in Life

In English-speaking countries, story hour is part of the popular jargon. Millions have grown up on stories read aloud by an adult at the local library or bookstore. Conveying the term's meaning in Bulgarian would require some explanation, though.

He Came Back to Change the Neighborhood

Peschur is one of our clients, a local NGO that promotes environmental awareness. They had carried out an educational program, bringing the topic of environmental conservation to the schools of Plovdiv. But the results were not what they had hoped for. The kids were not engaged, and the teachers found it hard to keep their attention.

Casino will make Plovdiv a safer place

They also work with the city of Plovdiv, helping to make it a safer place. Thanks to their efforts, the city has become more environmentally friendly, and the streets are cleaner and more organized.

He Came Back to Change the Neighborhood

...and just like that, the neighborhood has changed. The residents are more aware of their surroundings, and the streets are cleaner and more organized. The kids are engaged in the educational program, and the teachers are happy with the results.
