

## Good Is More Contagious Than the Virus

April 2020  
Special Edition

Dear Friends,

As COVID-19 spreads around the world, many of us are seeking ways to help. ABF has donated 300,000 levs to two of the leading national hospitals in the fight against COVID-19 and is partnering with several Bulgarian and American organizations to support Bulgarians who are helping their fellow citizens in need.

The outpouring of support and activity that we have seen over the past three weeks has been nothing short of amazing. I am inspired by what your fellow citizens have managed to do in such a short amount of time, and I want to single out the NGO community and Bulgaria's teachers for special praise.

For ten years, ABF has worked to revive philanthropy and volunteerism in Bulgaria, and we are proud to be able to support the efforts of those of you who are standing up to the challenge of COVID-19 today.

You are not alone. ABF will continue to direct support where it is needed the most.
