Dear Reader,

The online world can be a confusing place. In this issue of our newsletter, we present individuals and organizations that have made it their mission to guide you through the opportunities and pitfalls created by digital technologies. Whether they prepare individuals for digital careers, ensure our children's safety online, or enable citizens to take part in the deliberations of local government, we are all better off for their work.

This newsletter is your guide to the goings-on in the America for Bulgaria Foundation community, so make sure you subscribe to stay in the know.

Online Savvy

Fellowship of Facts: A United Front Against Disinformation

Whether you are 9 years old or 99, the Media Literacy Coalition has your back online.

Cloudy and Burger Free: A Recipe for Child-Friendly News

News portal Look! translates the world of adults into the language of children.

Annals of Online Learning

Why Going Digital Doesn't Mean More Screentime?

The Center for Creative Training has been changing teachers' minds about technology since 2007.

Game Changers
